Providing perimeter security
solutions for the water industry

EXPAMET FENCING SYSTEMS

Channel fencing doesn't me

Channel

Features

- Good through vision
- Expanded metal mesh: 4095/2089/4097
- Galvanised to BS EN ISO 1461:1999
- 3 metre centres
- Unique corner clamp assembly

Benefits

- Ease of installation
- Circular posts increase directional change fence line
- Low maintenance (long life expectancy)
- Aesthetically pleasing
- Competitively priced
- Difficult to penetrate and scale
- Enable utility companies to fulfil their obligation for public safety

General Information

Expamet have developed the Channel System to provide a substantially more secure, yet cost effective alternative to lightweight fencing. Its unique post/stringer design makes it particularly suitable to an environment where public safety, along with security, is of a high priority as there are no potentially dangerous protruding bolts from the face side.

Ideal for water treatment works

Fixafence system can be fix

Powder coating is available in all standard RAL colours (above, blue)

Can you have to splash out...
